Dose Notices & Reports to Individuals

The North Carolina Radiation Protection Regulations **10A NCAC 15** are provided to you at <https://radiation.ncdhhs.gov/regs.htm>. Regulations **10A NCAC 15 .1004(a)** and **CFR 19.13(a)** require notification to individuals. How this information is provided to the individual is up to the registrant, but each notification must be in written format and include the information below:

- **When Notification is Required:**
 - If an individual's occupational dose exceeds 1 mSv (100 mrem) TEDE or 1 mSv (100 mrem) to any individual organ or tissue in a year
 - If an individual requests his or her annual dose report
 - At the request of a former worker
- **Appropriate Identifying Data:**
 - Name of the licensee (registrant)
 - Name of the individual
 - The individual's social security number or unique identifier
 - Include the individual's exposure information
- **The Notification Must Include the Following Statement:**

"This report is furnished to you under the provisions of 10A NCAC 15 .1000: NOTICES: INSTRUCTIONS: REPORTS AND INSPECTIONS. You should preserve this report for future reference."

The agency accepts **either** the statement in 10 CFR 19.13(a) **or** the statement in 10A NCAC 15 .1004(a).

10 CFR 19.13(a): *This report is furnished to you under the provisions of the Nuclear Regulatory Commission regulation 10 CFR part 19. You should preserve this report for further reference.*

10A NCAC 15 .1004(a): *"This report is furnished to you under the provisions of 10A NCAC 15 .1000: NOTICES: INSTRUCTIONS: REPORTS AND INSPECTIONS. You should preserve this report for future reference."*

For compliance purposes the statement on the notification must be consistent with either 10 CFR 19.13(a) or 10A NCAC 15 .1004(a).
